information for submitting documentary material

deadline: 15th September 2008

The networking project "peace - utopia or real space?" taking part in October 08 is researching artistic work and practices which focus on creating peace. The idea is, not to only to show artwork which visualizes war/terror and limitation but projects which try to implement and establish conditions of peace.

In the exhibition space we will present documentaries of past or ongoing projects with the intention to open them up to a broader public and foster discussion, dialog and collaboration.

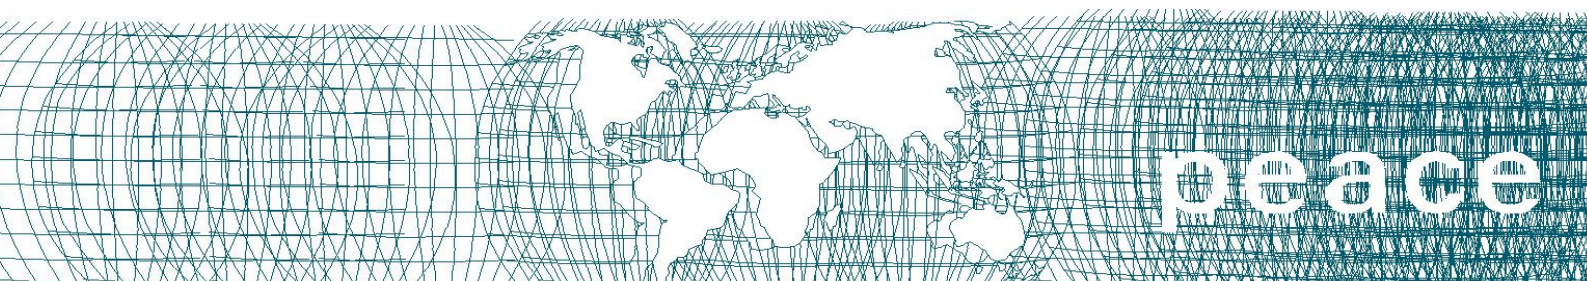

We invite artist and artist groups to hand in theme related documentaries of their work in form of written project descriptions, books/catalogues/DVDs which deal with the following issues

- political and activist approaches
- processes of decision making
- force/violence and its legitimization
- law free territories
- subject/subjectivity/intersubjectivity/alienation and borders of the body
- power of language

Additionally we can offer you to set a link to your web- and project sites and if you participate in the documentary exhibition, we will name you and your project in the artist list of our publication which will be issued in 09.

More information about the main project you will find under >> >> >> www.peace-realspace.net

>> >> >> If you are interested to participate please send an email to: participate@peace-realspace.net

practicalities for sending documentary material

deadline: 15th September 2008

For making your project information accessible to the public the documentary material should contain:

- the project description
- intentions / theoretical background / setting / evtl. reflection
- time/place
- curator/s / artists / other important participants
- website
- name/e-mail of the contact person
- pictures if possible

Since we have only a small budget we are very sorry that we can't offer you to send anything back or give financial support. If you decide to do a collective mailing together with other artists, we eventually will be able to support the postal cost if you let us agree upon the costs ahead of time. All materials will be later on part of the project files of "peace-utopia or real space?" and stored in our archive

you can submit the following materials

- DVD's with: documentary material and pictures / film documentaries of your project / artistic films to the theme
- Catalogues / Brochures
- Flyers / Postcards
- Posters
- Pdf (jpg.) via e-mail with all necessary information (see above).

>> >> >> >> >> >> >> >> >> **Please do not send any originals or any original art work!**

For your submitted material we guarantee your copyright and will not use it without your confirmation for any other purpose than this project. If you would like to submit catalogues, they later on will be part of arttransponders open library.

please send your submitted materials to the following address:

arttransponder e.V.
